

GERDA SPILLMANN

SWISS COSMETICS SINCE 1944

THREE SIMPLE STEPS TO HEALTHY SKIN

Simple. Natural. Beautiful.

THE APPLE AS THE ORIGIN OF THE CORPORATE PHILOSOPHY

Mrs. Gerda Spillmann grew up on a farm in Switzerland. Early in life, she made the discovery that not all apples are the same. Some types remain fresh, plump and juicy even after being stored for a long time, while other varieties quickly lose their juice and become wrinkled. The difference is in the wax content of the apple's skin. Mrs. Gerda Spillmann identified the wax content being the reason for skin protection and keeping moist for longer.

Gerda Spillmann Swiss Cosmetics incorporates this principle into their skin care cosmetics. The better the skin is protected against environmental influences (sun, wind, polluted air) throughout the day, the longer it retains its moisture. Wrinkles are the natural result of the daily moisture loss our skin goes through.

The three-step care concept from Gerda Spillmann can delay this process – leaving your skin fresh, smooth and radiant for longer.

NATURALLY SWISS MADE – SINCE 1944

Natural herbal ingredients combined with moisturizing active substances are the secret behind Gerda Spillmann facial care. Many plant extracts are from Switzerland and come from certified organic cultivation, for example edelweiss extract, wild mallow, peppermint, primrose, common yarrow or lemon balm. The combination with precious tamarind, avocado or witch hazel extracts lead to unique, moisturizing Anti-Aging products to care for and protect the skin.

Gerda Spillmann products are developed and produced in Switzerland. All products are dermatologically tested, cruelty free and consist of natural preservatives. The entire range is suitable for sensitive skin.

THREE STEPS TO HEALTHY SKIN

The Gerda Spillmann Swiss Cosmetics principle combines gentle, simple and highly effective care. Three skin care steps provide your skin with moisture and give it a new, vibrant radiance.

By purposefully selecting appropriate care products from Gerda Spillmann, active women can look after their skin extremely effectively in minimal time. For each of the three steps, select products that suit your skin type.
